PROTECTING THE PUBLIC  
SERVING OUR NATION

Appears to be 30-round capacity  
PMAG firearm AR magazines.

## Las Vegas Recovered Weapons and Ammunition

Las Vegas Recovered Weapons and  
Ammunition

There are no external visual indications (i.e. automatic sear pin hole) that the weapons have been converted into machineguns.

However, on-scene ATF personnel were **not allowed** to physically examine the interior of the weapons for machinegun fire-control components or known machinegun conversion devices such as Drop-In Auto Sears, Lightning Links, etc.
